APA 7 AI Auditor Tool

About the Auditor

The APA7 Auditor SKILL.md toolkit package is available for Claude and Gemini via a GitHub repository. The tool was developed by Dr. Cari Miller, a WilmU DBA program alumnus and current adjunct instructor. The APA7 auditor was designed to help students identify and correct APA7 compliance issues within their papers. It is not meant to be used as a tool for grading. This is an AI tool. It can make mistakes. Always check your own work.

Installing the Auditor Skill

The APA7 Auditor works best with Claude and Gemini.

Claude

- **Open** https://github.com/DrCLMiller/apa7-auditor-skill
- **Download the Zip File:** click the **green < > Code** button near the top right -> Click **Download ZIP**
- **Open** Claude.ai
- **Add the skill to Claude**: Click **Customize** (left sidebar) -> **Skills** -> **+** -> create or **upload** skill -> select apa7-auditor-skill.zip -> **Save** or Install -> Make sure it is turn "**On**"
- **Use the skill** by uploading a paper and calling the skill by entering this in your prompt: @apa7-auditor check this paper

Gemini

- **Open** Gemini
- **Enter the following prompt**: gemini skills install https://github.com/DrCLMiller/apa7-auditor-skill
- **Verify the install happened** by entering the following prompt: gemini skills list
- **Use the skill** by uploading a paper and calling the skill by entering this in your prompt: @apa7-auditor check this paper

Auditor Limitations

COPILOT

Requires knowledge of how to set up Copilot Studio Agents, which are beyond the scope of this document.

perplexity

This LLM2 orchestration system is not capable of handling custom AI skills.

ChatGPT

Requires use of a custom GPT, which degrades the performance quality of the tool and compromises its accuracy.
